
Chat does not auto-refresh, no chatting

Posted by pashmak - 2009/05/17 04:11

Hello,

I purchased ur product AJAX CHAT months ago.

I have experienced some problems with chat not being able to "auto-refresh". It only shows others messages AFTER I posted a message myself. Thats because it wont auto-refresh, it only refreshes my screen when I post a message.. this problem occurs on all browsers and for all my users.

Sometimes, ill have to delete all chat log and tell everyone to re-login into the chat, then it will auto-refresh.

Do you know how to fix it?

Thanks

Chat: AJAX CHAT COMPONENT Version 1.0.1

Joomla: 1.5.10 (legacy mode on)

THeme: Rockettheme
